

The TSE 4030 system is a high performance sound reinforcement system for array installations and general use. The dispersion of 40° x 30° makes the system equally suitable for long throw applications.

PRODUCT SPECIFICATIONS

Speaker Components	15" / 2"
Description	High Performance Sound System
Powerhandling - AES / Peak	600 Watt / 1800 Watt
Impedance - nominal	8 Ohm
SPL 1m - 1Watt / Peak	109dB / 141dB
Usable Range	100Hz - 17kHz
X - Overpoint - acoustical	600Hz
Connectors	2x Neutrik Speakon 4-pol
	Coding: 1+/- HiMid, 2+/- Sub
Coverage - horizontal / vertical	40° x 30°
Handles	2x 4D handle / 2x 2D handle
Rigging - flying points	2x MAN CF4
	2x Riggingbar
Fittings	wheelboard fittings
Weight	55,0kg
Size - height x width x depth	69,8 x 51,2 x 68,0 cm
Art. Nr.	0900
